Precision Medicine | MAY 13, 2026

GENOMICS, PROTEOMICS & MOLECULAR DIAGNOSTICS

Date	Time	Track	Presentation Title	Speaker
13-May	10:00 - 11:00 AM	Transformative Methodologies in Genomics & Molecular Diagnostics	CYP2D6 Copy Number Determination using Digital PCR	Andrea Gaedigk, PhD Director Pharmacogenetic Core Laboratory, Division of Clinical Pharmacology and Therapeutic Innovation Wendy Wang Researcher and Laboratory Supervisor Pharmacogenomics Children's Mercy Research Institute, Department of Clinical Pharmacology and Toxicology
13-May	12:00 - 01:00 PM	Advancing Precision Medicine: Technologies & Innovations	Using Circulating Biomarkers to Support Precision Cancer Research	Matteo Allegretti, PhD Senior Researcher, Translational Oncology Research Unit Regina Elena National Cancer Institute, Rome, Italy
13-May	01:00 - 02:00 PM	Clinical Applications & Case Studies in Precision Medicine	Best Practices for Clinical Labs in Turbulent Times	Michael Donovan, PhD, JD Assistant Teaching Professor, Biomedical Diagnostics, Arizona State University Travis Schlappi, PhD Assistant Teaching Professor, Biomedical Diagnostics, Arizona State University Mara Aspinall, MBA Partner, Illumina Ventures. Academic Affiliation: Professor of Practice and Co-Founder, Biomedical Diagnostics
13-May	03:00 - 04:00 PM	Advancing Precision Medicine: Technologies & Innovations	Driving Sustainable Pharmacogenomics (PGx) Sample Volume	Becky Winslow, PharmD inGENEious RX Inc.
